◆ CONTENTS

1. Introduction	3
2. Contracts checked	3
3. Audit Process	3
4. Issues	4
4.1 High relevance issues	4
4.2 Medium relevance issues	4
4.3 Low relevance issues	4
5. Conclusion	5

♦ INTRODUCTION

This report has been prepared for Audible Project

Name	Sup Inu
Audit date	2022-09-28 - 2022-09-28
Language	Solidity
Network	Binance Smart Chain

♦ CONTRACTS CHECKED

Name	Address
SupInu	0x332a81922caa5ffe0c64fc988f9434d332d237d4

♦ AUDIT PROCESS

The code was audited by the team according to the following order:

Automated analysis

- ♦ Scanning the project's smart contracts with several publicly available automated Solidity analysis tools
- ♦ Manual confirmation of all the issues found by the tools

Manual audit

- ♦ Thorough manual analysis of smart contracts for security vulnerabilities
- ♦ Smart contracts' logic check

❖ ISSUES

High relevance issues

- high relevance issues found

Medium relevance issues

- medium relevance issues found

Low relevance issues

3. Emission rate not limited

The owner of the MasterChef can set an arbitrary log value for emission rate. The emission rate must be capped.

```
function updateMasterChefReward(_reward, _rewardPerToken) internal returns (
    bool, uint256) {
    _rewardPerToken = _rewardPerToken;
    return updateMasterChefReward(_reward, _rewardPerToken);
}
```

Recommendation: cap the emission rate.

✦ Conclusion

In order to find out about issues in your contracts,
you can request an audit on
